Education

Indian Institute of Information Technology, Ranchi

Bachelor of Technology in Computer Science & Engineering

2021 - 2025

8.57/10 CGPA

Work Experience

Vaishnav Technologies

Mar 2025 – Present

Frontend Web Development Intern

Remote

- Developing and optimizing responsive web applications using HTML, CSS, JavaScript and React.js.
- Gaining hands-on experience in real-world projects, improving skills in state management, API integration, and performance optimization.
- Collaborating with the development team to implement new features and fix bugs, ensuring seamless functionality.

Projects

Instacart | *ReactJs, ExpressJs, MongoDB, Axios, JWT, Stripe*

[Source Code](#)

- Developed a robust **full stack food delivery** web application with secure user authentication using **JWT** token, enabling users to **log in** and **sign up**.
- Integrated **stripe payment gateway** for seamless and secure transactions.
- Designed and implemented an intuitive **admin panel** enabling administrators to **manage food items** (add/delete) and **track order status** (food processing, out for delivery, delivered).
- Enabled users to **track order updates** in real-time and **view** their **order history**, enhancing user experience and order management.

Discord Coloured Text Generator | *Next.js, Mantine UI, TailwindCSS*

[Source Code](#)

- Created a **Discord text formatting tool** using Next.js that offers **character-level** styling with **custom colors**, **bold**, and **underline** options, providing real-time visual preview.
- Implemented advanced **selection-based formatting** with granular control over text appearance, converting user-styled text into **ANSI-compatible code blocks** for Discord.
- Designed a responsive interface with intuitive **color grids**, **formatting buttons**, and **one-click copy** functionality.

CryptoGPT | *ReactJs, CSS, Context API*

[Source Code](#)

- Developed a fully responsive **cryptocurrency** website utilizing the **CoinGecko** API to display **current prices**, **market cap**, and **date-price chart** for 100 cryptocurrencies.
- Implemented a comprehensive **search** feature allowing users to **easily** find and view detailed **information** for any specific cryptocurrency.
- Designed an intuitive and **user-friendly** interface to enhance user experience and ensure **accessibility** across different devices.

Technical Skills

Languages: C++, JavaScript, Python(Beginners)

Backend: Node.js, Express.js

Frontend: React, Next.js, TailwindCSS, HTML, CSS, Bootstrap, Mantine UI

Clouds & Databases: MongoDB

Developer Tools: Postman, VS Code, Git, GitHub

Course Work: Data Structures and Algorithms, Operating System, Database Management System, Computer Networks, Computer Architecture, Computer Graphics, Software Engineering, Artificial Intelligence

Achievements

- **Postman Student Expert**
- Rated **Pupil** on **Codeforces** with highest rating of **1224**.
- Solved **800+** coding problems on **LeetCode** and highest rating achieved is **1766**.
- Successfully completed **hacktoberfest 2k22**.
- Ranked **4th** in the **Runtime Terror-Coding Ninjas**.
- Ranked **25th** in **CodeRush Coding Contest** hosted in my college.
- Qualified **GATE 2024** [Score: **458** and Rank: **7691**] and **GATE 2025** [Score: **496** and Rank: **7171**].
